

HOW COOL IS YOUR VU?

RESIDENTIAL DESIGN GUIDE

COOLVU GLASS AND SURFACE SOLUTIONS FOR YOUR HOME

CoolVu™ offers professional consulting and installation of premium products for every need and budget giving you a wide variety of impressive home improvement choices. From window tinting to privacy, frosted glass, architectural surfaces, and security glass solutions, CoolVu offers the depth of products and installation capabilities to improve your most valuable space.

CLEAR UV PROTECTION & HEAT CONTROL FILM

Your home is your greatest asset. Protect this investment from UV exposure and preserve the deep color of fabrics, artwork, and hardwoods for years to come from irreversible sun damage.

UV and heat control window films for homes are a proven, low-cost upgrade to existing window and door glass with exceptional long-term benefits. CoolVu window films are optically clear, block 99% of the sun's damaging UV rays, reduce the sun's heat and help lower your energy bills.

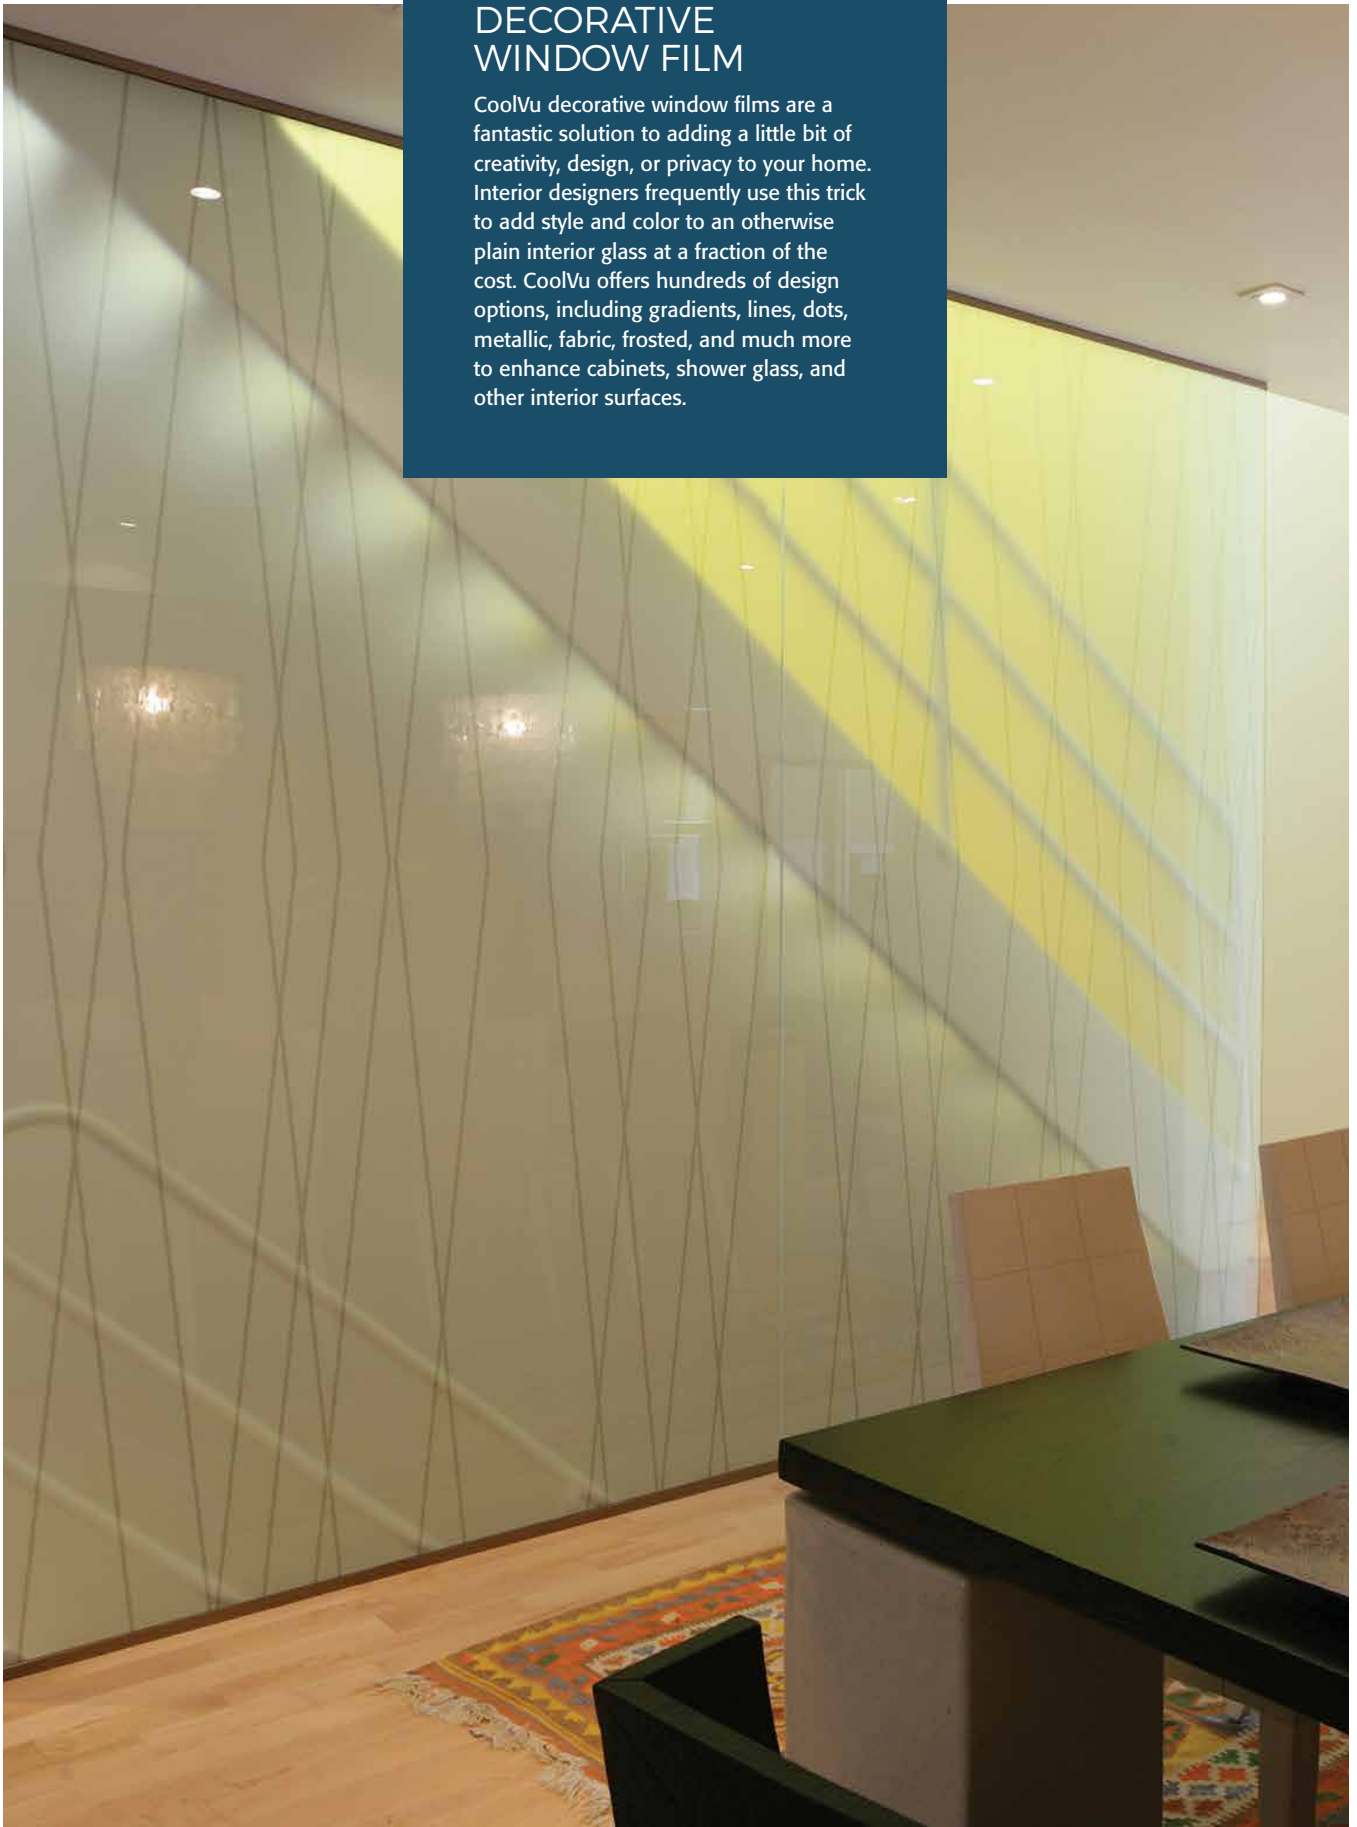

CERAMIC SOLAR CONTROL FILM

Ceramic solar control window film is your next-level solution for managing sunlight and UV damage while enjoying impressive energy savings. CoolVu's proprietary Ceramic Transitional window films adapt to the sun's intensity and darken when exposed to direct sunlight providing for perfect sun control when needed most. Maintain views, lower air conditioning costs, and improve interior comfort with the installation of CoolVu's full line of ceramic solar control window films.

DECORATIVE WINDOW FILM

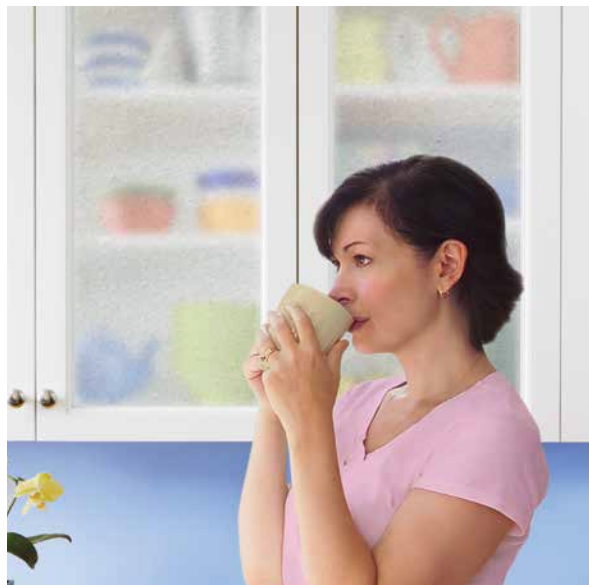

CoolVu decorative window films are a fantastic solution to adding a little bit of creativity, design, or privacy to your home. Interior designers frequently use this trick to add style and color to an otherwise plain interior glass at a fraction of the cost. CoolVu offers hundreds of design options, including gradients, lines, dots, metallic, fabric, frosted, and much more to enhance cabinets, shower glass, and other interior surfaces.

WINDOW FILM FOR PRIVACY

CoolVu offers an extensive array of frosted privacy film and architectural glass finish options for interior designs of every type. Homeowners love the versatility of CoolVu's designer privacy film products for front entryways, bathrooms, shower glass doors, basement, and garage windows.

SURFACE FINISHES & CUSTOM PRINTS

There are a variety of options for refreshing your surfaces and fixtures with minimal downtime and waste. Enhance walls and windows with printed graphics, murals, and custom wallpaper. Protect and re-finish stone, wood, and surfaces of all kinds with specialty films, ceramic coatings, and architectural finishes.

Hundreds of design options are readily available, or have any digital image converted onto a printable film to be applied on walls or glass surfaces, enhancing your residence or home office space.

INTERIOR WALL GRAPHICS & MURALS

Turn the ordinary into the extraordinary. You'll love the versatility of CoolVu's printable graphics and wallpaper to easily transform rooms into an expression of their personality and unique style. Add any word or image to a flat surface to make it your own.

ARCHITECTURAL SURFACE FINISHES

Renovate and refresh any flat surface with one of thousands of 'peel, form and stick' architectural surface films available from CoolVu. Available in wood grain, stone, metallic or matte finishes, the opportunity to update your space economically is endless.

Architectural films are an eco-friendly way to renovate a home and have been designed to withstand fingerprints and dirt over a long period of time. Keeping your surfaces looking as good as the day they were installed.

SAFETY & SECURITY WINDOW FILMS

Protect your family and your property with safety and security window film. Security window films fortify doors and window glass to provide resistance against intrusions and forced entries, protecting your weakest points of entry. While security films make it much more difficult for an intruder to break into your home, it also protects you from the harm caused by flying shattered glass during a severe weather event.

HOW **COOL** IS YOUR **VU**?

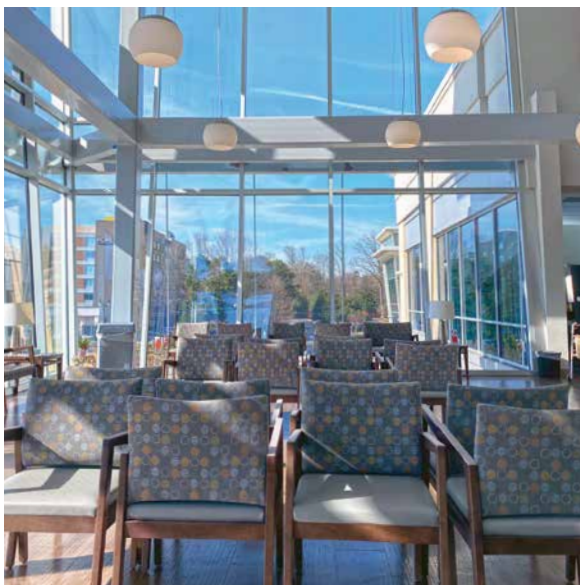

COMMERCIAL DESIGN GUIDE

COOLVU GLASS & SURFACE SOLUTIONS FOR COMMERCIAL PROPERTY

CoolVu™ has experts who can help you choose the best improvement products for your business and your budget, giving you a wide range of impressive solutions and cost-saving options. From solar control & privacy window film, frosted glass film, architectural surface finishes, and retrofit security glass solutions, CoolVu is counted on nationwide to deliver on time and on budget. Municipal buildings, campus, businesses, retailers, and commercial office property managers looking for easy to implement innovative solutions for walls and windows trust CoolVu professionals.

CLEAR UV PROTECTION & HEAT CONTROL

Upgrading your windows with UV and energy-saving window film to CoolVu can yield significant savings to your bottom line. Decrease glare, heat, dangerous UV rays, the risk of skin cancer, and energy costs by reflecting solar radiation and reducing its transmission into the built space. Protect your property, merchandise, and people from UV exposure and boost property value by lowering overhead costs. UV and heat control window films are a proven, low-cost upgrade to existing window and door glass with exceptional long-term benefits. CoolVu window films are optically clear, block 99% of the sun's damaging UV rays, reduce the sun's heat and help lower your energy bills.

CERAMIC SOLAR CONTROL WINDOW FILM

Ceramic solar control window film is your next-level solution for managing sunlight and UV damage while enjoying impressive energy savings. CoolVu's proprietary Ceramic Transitional window films adapt to the sun's intensity and darken when exposed to direct sunlight providing for perfect sun control when needed most. Maintain views, lower air conditioning costs, and improve interior comfort with the installation of CoolVu's full line of ceramic solar control window films.

GLASS FILM FOR PRIVACY

CoolVu offers an extensive array of frosted privacy film and architectural glass finish options for businesses of every type. CoolVu's designer or customizable privacy film products are available with economical finishes to renovate and enhance conference rooms, glass walls, and office partitions.

Privacy films are great for:

- Flex-Office Space
- Conference Rooms
- Hospitals & Doctors' Offices
- Classrooms
- Hotels
- Restaurants

SWITCHABLE SMART GLASS FILMS

Switchable smart films enable you to create 'privacy on demand.' Often referred to as 'smart glass,' it can be applied to any window or smooth glass surface that needs an option for privacy. Switchable privacy film is a dynamic and unique solution that has become a popular choice in creative office spaces, governmental facilities, and educational institutions. Smart films can also be used as a projection screen, helping you create a "wow" experience in any space.

CUSTOM WINDOW FILMS & GRAPHICS

Take your message to the next level. Storefront windows, campus skyways, and lobby glass are great marketing opportunities to promote your business, values, and services. You can use your windows as a billboard to grab the attention of your target customers by using custom window graphics and films. CoolVu's design team services each stage of the process from high-definition printing through top notch product installation.

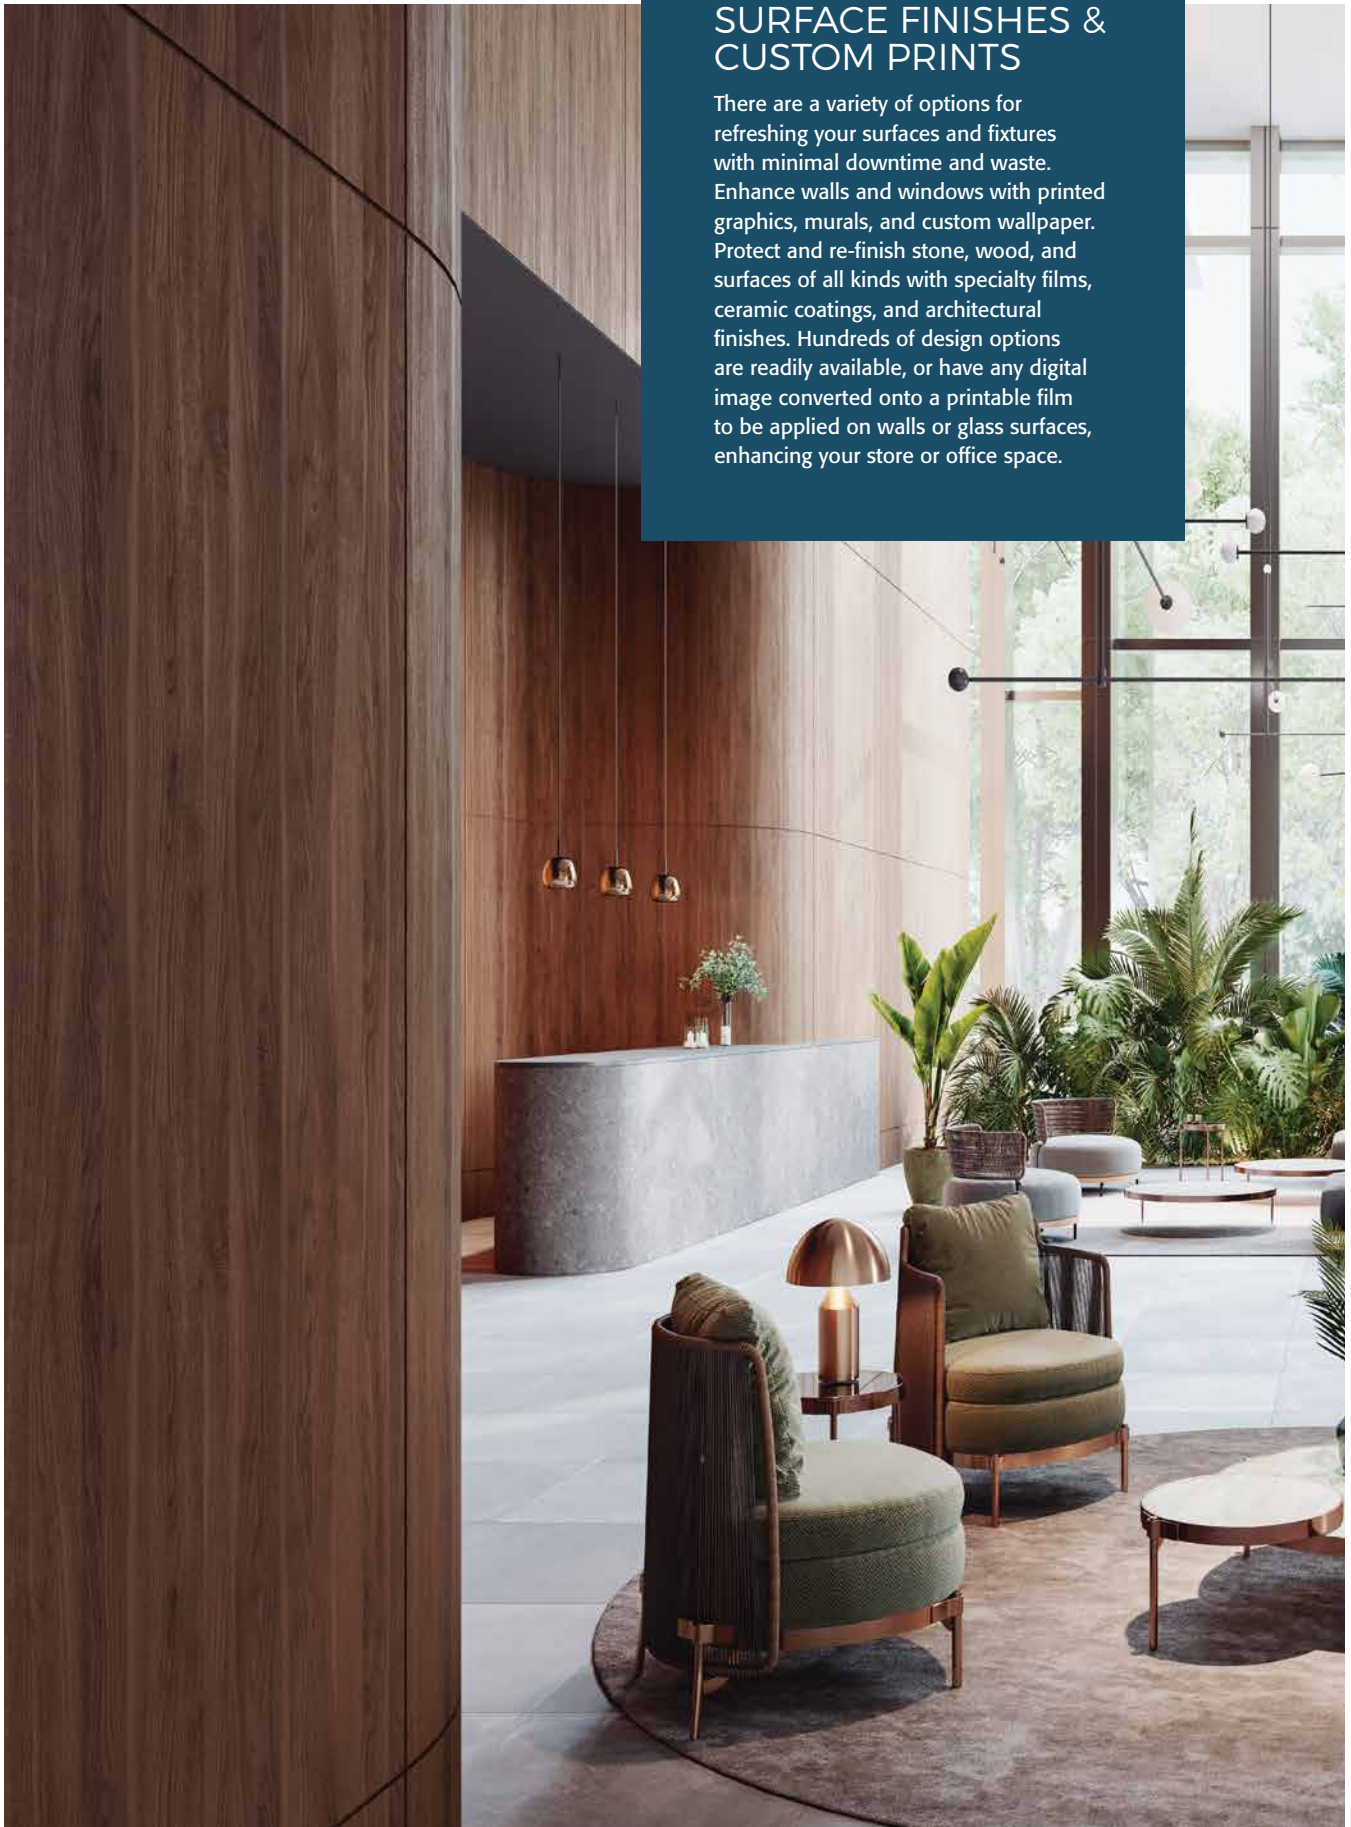

PERFORATED WINDOW GRAPHICS

CoolVu's perforated vinyl window graphics transform buildings and retail windows into valuable advertising space while providing one-way privacy, sunshade, and still allowing filtered sun light to come through the glass. For long or short-term installation, perforated vinyl can be tailored to your brand with custom high-resolution graphics and easily removed without damage.

SURFACE FINISHES & CUSTOM PRINTS

There are a variety of options for refreshing your surfaces and fixtures with minimal downtime and waste. Enhance walls and windows with printed graphics, murals, and custom wallpaper. Protect and re-finish stone, wood, and surfaces of all kinds with specialty films, ceramic coatings, and architectural finishes. Hundreds of design options are readily available, or have any digital image converted onto a printable film to be applied on walls or glass surfaces, enhancing your store or office space.

INTERIOR WALL GRAPHICS & MURALS

Turn the ordinary into the extraordinary. You'll love the versatility of CoolVu's printable graphics and wallpaper to easily transform rooms into an expression of their personality and unique style. Add any word or image to a flat surface to make it your own.

ARCHITECTURAL SURFACE FINISHES

Renovate and refresh any flat, non-porous surface with one of hundreds of 'peel, form and stick' architectural surface finishes available from CoolVu. These high-end vinyls are available in wood grain, stone, metallic and beautiful matte finishes. The opportunity to update your commercial cabinets, counters and fixtures economically is endless while reducing waste that ends up in landfills. Architectural films are an eco-friendly way to renovate a business interior economically. Durable and designer friendly, these products been designed to withstand fingerprints and dirt over a long period of time, keeping your surfaces looking as good as the day they were installed.

SAFETY & SECURITY WINDOW FILMS

Protect your business and your investments with safety and security window film. Security window films fortify door and window glass to provide resistance against intrusions and forced entries, protecting your weakest points of entry. While security films make it much more difficult for vandals to break into your store, it also protects you and your inventory from the harm caused by flying shattered glass during a severe weather event.

ANTI-GRAFFITI FILMS

Protect against graffiti tagging, scratching, aging, corrosion, and discoloration with CoolVu's anti-graffiti glass films. The semi-permanent anti-graffiti film, which is nearly invisible after installation, is not only a deterrent against vandalism, but it also decreases, if not eliminates, the need for costly glass replacement. Over time, retail stores can easily save tens of thousands of dollars more on a single-window replacement by installing these sacrificial anti-graffiti window protective film coatings.
